Super groups have a prestigious history in the music industry from such legendary rockers as The Traveling Wilburys to the iconic country foursome The Highwaymen to the stellar Trio of Dolly Parton, Emmylou Harris and Linda Ronstadt. There's a special excitement when successful artists combine their individual talents and star power to create something fresh and exciting.

With decades of musical experiences behind them, Fortune, Walker, Rogers and Isaacs know

they have something special when they unite.

"There's anointing on the four of us," Walker says. "You can put four people together, four great soloists and sometimes it doesn't work. Yet this does. It's the songs and our harmonies. This music takes people back to a certain time and I think people are longing for that now."

It's a special blend that transcends great harmonies and memorable lyrics. It's something unique, only to be created together as Brothers of the Heart.
